

Pod — screen module check template (1:1)

Print at 100% / Actual size (no 'fit to page'). Check the 50 mm bar with a ruler.
Cut out the rectangle. With the module's back facing you (like your photo),
press the paper on so the 14 header pins poke through the dots (pin 1 = VCC, square).
Then check: do the 4 hole marks and 4 SD pads line up? Note anything off, and by how many mm.
